

Talking Points for 5G

Quick and Simple Content for Letters, Phone Calls, Interviews & Presentations

1. **5G is not needed.** It represents Telecom's desperate power grab for a multibillion-dollar, unnecessary “upgrade.”

<https://www.nickhunn.com/qualkia-constructing-the-5g-myth/#respond>

2. **There is no business case for 5G.** With its high electrical usage and maintenance costs, 5G is forecast to cost 5 times more than wired networks to operate.

3. **Fiber is a safer, faster, more reliable** and FAR more cyber secure and energy-efficient way to improve connectivity than 5G.

<https://connected-communities.ca/>

4. **We are bio-electrical beings** and wireless technology is bad for our health.

<https://mdsafetech.org/featured-page-one/>

5. **A growing number of citizens already suffer from Microwave sickness.** Where will they go?

<https://wearetheevidence.org>

6. We have mistaken the ability to connect with anyone at anytime as freedom, when in truth for many, including children, it is **addiction**.

<https://psmag.com/social-justice/manic-nation-dr-peter-whybrow-says-were-addicted-stress-42695>

7. **5G will harm plants, wildlife, insects and the environment.**

<http://whatis5g.info/environmental-impacts/>

8. **5G towers, and wireless data transmissions are grossly energy inefficient** and are significant contributors to global climate change.

<https://www.ourwebofinconvenienttruths.com/letters/>

9. We have overlooked how the ability to access anyone anywhere wirelessly **enables surveillance and control**, and how 5G allows for **the commoditizing of private citizens' data**.
