

Is your daughter in a wireless classroom?

Every female is born with all of the eggs she will ever have. Girls who use wireless devices are at risk of fertility issues later in life because of the radiation they are exposing their ovum to now.

Bakacak, M., et al. The effects of electromagnetic fields on the number of ovarian primordial follicles: An experimental study. *Kaohsiung Journal of Medical Sciences* (2015) 31, 287e292.
