

Mail to Government of Canada Free of Postage

Dear Minister of Health Patty Hajdu,

The Government of Canada assures the public on its webpages that exposures to radiofrequency (RF) energy (=radiation) from 5G technologies and from everyday wireless devices such as cell phones and cell tower antennas are safe. **Canadians for Safe Technology (C4ST) has fact-checked some of these statements and found them to be inaccurate and misleading to the point of being "misinformation."**

**Safety Code 6 (2015) is outdated and does not protect the health of Canadians and other living beings from RF radiation.** There is ample science to demonstrate that RF energy (=radiation) is a "known human carcinogen" and is **not safe below maximum exposure limits in Safety Code 6.**

You and other government officials allowing this ongoing health travesty to further accelerate with the roll out of 5G are accountable; I and the over Twenty Thousand Canadians who have signed the Suspend 5G appeal urge you to *act without further delay.*
